**Career Technical Education (CTE):**  
 CTE programs are courses or a sequence of courses that relate directly to the preparation of individuals in high need or emerging occupations, such as manufacturing, health care/medical careers, education, and more, including pre-apprenticeship programs.

**Workforce Preparation:**  
 Workforce Preparation classes are educational courses and services that provide short-term workforce skills, such as job search strategies, interview skills, digital literacy, and career planning necessary for a successful transition to the workforce or postsecondary education and training.
